REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Holderness:

This, my third annual report, discusses the following topics:

- (a) Statistics of our schools.
 - (b) Buildings and equipment.
 - (c) Acknowledgments.
 - (d) Recommendations for 1937-1938.
-

STATISTICAL TABLE

For the Year Ending June 30, 1936

School and Teacher	No. half-days school in session	Total enrollment	No. pupils (average membership)	Percent of attendance	No. tardinesses per pupil	No. pupils not absent or tardy
Carr School (Nina A. Taylor)	358	16	14.7	95.5	1.7	0
Elm School (Bertha Moody)	364	17	14	90.6	.2	2
East School (Doris Howe) (Ruby S. Weeks)	362	14	11.6	90.8	2.4	0
Bridge School (Dorothy Morton)	362	37	27.3	92.2	1.7	1
All Holderness (Average or total)	361.5	84	67.6	92.3	1.5	3
Sate of N. H. (Average)	353.7			94.7	0.9	

The foregoing report shows that the Bridge School, last year, was more than twice as large as either of the other schools. However, the number given as total enrollment—37—is misleading. There were 37 different pupils, including some who were there for only a short time, but never more than 32 at any one time.

The East Holderness School has a large number of tardinesses per pupil; the Elm School, on the contrary, has an unusually good record in this respect.

Attendance in Holderness last year was decidedly lower than the state average.

The enrollment of our four schools at present is as follows:

East Holderness	17
Carr	22
Bridge	26
Elm	9

The large enrollment at the Bridge School has led some to suggest the proposal of reopening the True School. I should question the wisdom of doing so. A plan of transferring the upper grade pupils from the Bridge to the East School, and the primary pupils from the East to the Bridge School, would be preferable. Such a plan would equalize the number of pupils in these two buildings; would increase very materially the effectiveness of teaching, as each teacher would have only four grades instead of eight; would add to the interest of the pupils, as classes would be larger providing more group work and more competition; and finally, would be a great saving in expense to the district, as compared to the cost of maintaining another school.

Buildings and Equipment

The lighting, heating and ventilation, and toilet arrangements of our schools are all of an approved modern type. Playground facilities at the Carr school are unusually good, while the Elm and

Bridge Schools are reasonably well provided for in this respect. The East Holderness School, on the contrary, is so located that good playground space is hard to find.

New equipment includes a piano for the Elm School (the only school not already provided with one) ; a set of encyclopedias for each school; and new maps for the East and Bridge Schools.

Acknowledgments

Grateful mention should be made of the kindness of Mrs. Harold Webster, who gave us magazines; of Mr. Walter Greenleaf and Mr. Albert Farmer, who helped provide swings for the Carr School; and of the American Legion Auxiliary, No. 33, of Meredith, who donated library books for the Carr School. The Grange and the Holderness School for Boys generously assisted in making our Christmas festivities more enjoyable. The Grange also sponsored the annual prize speaking contest.

The pupils in the various schools do their share in helping themselves. Boys at the East School have made window boxes; the Elm School pupils, through the sale of candy, have financed hot lunches for the winter term; and the Carr School has helped provide playground apparatus by selling hand-made novelties and charging admission to programs.

Recommendations for 1937-1938

As mentioned earlier in this report, I would suggest that the school board seriously consider a plan of making the East Holderness School into a grammar room, and the Bridge School into a primary room by providing suitable seating, lunch and transportation facilities.

Conclusion

This report has made no comment on the main everyday job which the teachers are doing—the job of building better citizens for the next generation.

In mentioning the unusual details such as have been included here, I do not mean to suggest that the commonplace task well done is not worthy of the highest praise. The teachers deserve our sincere commendation for their faithful efforts, as well as the parents and school board for their willing cooperation.

Respectfully submitted,

ALMON W. BUSHNELL,

Superintendent.
